

Product Data Sheet

MAGNI 560

FASTENER

COATING

Magni 560 is a chrome-free duplex coating that combines electroplated zinc and hexchrome-free passivated substrate with an aluminum-rich organic topcoat. A coating that can be engineered to specific coefficient-of-friction needs, Magni 560 is offered with exempt solvents and typically applied to fasteners, including nuts, bolts and other hardware. Magni 560 can be applied via dip-spin or spray application methods.

PERFORMANCE DATA*:

Coating thickness 5-8 microns

(topcoat)

over 6-10 microns

zinc plate (basecoat)

Coefficient of friction

ISO 16047:

 0.13 ± 0.03

(other levels available)

Color

Gray; silver
